

DECLARATION OF CONFORMITY

The lightning protection system component with order no. **1047**

- Washer for the Niro-Clip conductor fasteners - plastic grey-

is in conformance with

EN 62305-3
Protection against lightning –
Part 3: Physical damage to structures and life hazard

Further we confirm that our factories in Neumarkt/OPf.,
Frankenberg and Deining are certified according to ISO 9001:2015.
(Verification: DQS Certificat-Registration-Nr. 002894 QM15)

Our distinctive idea of quality considers national and international
standards and regulations as well as the current state of the art.

Our complete product range fulfills all relevant guidelines of the
CE-marking, so we are permitted to bear the CE-marking on our
products and to distribute them in the European Economic Area.

This certificate remains valid as long as the defined conditions have not been
changed in the harmonized technical specification or the product specification.
