Ribs Space 6 mm

Wiring ducts ribs designed as 6 mm width of single quotation will be sufficient for the transition from the thicker to breakage of cables.

The Breaking of Ribs

There are ribs lines that allow the desired ribs to be broken at angle of 60 degrees easily and without using any apparatus. In this way, you will get a comfortable and burr-free image.

The Design of Ribs Slot

Thanks to the round hole design on the ribs, you can remove your signal cables from the channel separately from other cables.

Wall Holes Design

Can be used with the cable tie thanks to additional holes on the sides .

Wall Breaking

The combination of the Ducts 90 degrees corners are smooth and Burr-free integration provides.Thanks to this you will make your Panel look more elegant and rigid

RAL 7030

Conform to the International standards.
